

**COPE Health Solutions** is a national leader in moving health care payers and providers to value-based payments and care models

COPE Health Solutions partners with our clients to help them achieve visionary, market relevant health solutions. We focus on all aspects of strategy, alternative payment methodologies, population health management, CMS demonstrations, and workforce development for clients across the health care continuum, including hospitals, health systems, physician organizations and health plans.

Our multidisciplinary team of health care experts provides our clients with the tools, services and advice they need to plan for, design, implement and support successful operations in a challenging and rapidly evolving health care environment.

## SUCCEED WITH POPULATION HEALTH THROUGH: Network Development

### Assess and Optimize Provider Networks

- How does leakage impact financial and clinical performance?
- Are key access points in the right geographies?
- Is established clinical governance effective?
- Is the complement of provider types optimal?

## Care Management

### Understand and Redesign Care Delivery Models

- Are existing care management programs effective?
- Are appropriate disease management programs actively monitored?
- What short-term clinical interventions will immediately close quality gaps?
- What care delivery changes are needed, and when?

## Data Analytics

### Discover and Measure Opportunities with Data

- Who are over/under performing providers?
- Where are short- and long-term opportunities?
- What are short and long-term opportunities worth?
- How should investments be prioritized?

## Strategic Planning

### Use Proven Planning Tools to Implement

- How is project management office deployed?
- What key performance indicators are currently tracked or should be tracked?
- Who is responsible and accountable for achieving strategic goals for key performance indicators?
- Where are the implementation plans tracked?
